

# NEW PLACE SAME ME

New town, new street  
Different faces when we meet  
Pack my bag, change my view  
Say hello like I always do  
Learn your name, learn your laugh  
I hope this one will last

I move around, I don't stay  
Make new friends, then move away, I move away  
Same smile, Different street  
New place, same me, it's the same me

New school, new room  
Boxes piled up too soon  
Sit down, say "hi"  
Wonder if I will say goodbye  
We talk fast, we grow close  
Time changes us the most

I move around, I don't stay  
Make new friends, then move away, I move away  
Same smile, Different street  
New place, same me, it's the same me

Everywhere I go, I leave a piece  
Every hello, ends with a "please...  
Don't forget me"

I move around, I don't stay  
Make new friends, then move away  
Same heart, different view  
New place, same me and you  
it's the same me and you

New town, new friend, Do it all again
