

we'll meet soon

Though I might be nervous
You make me feel okay
And when we're saying goodbye
I wish that you could stay
No matter where you're going
I'm going too
No matter where you're going
Our friendship is true

From the tip of Snowdon
To the blue lagoon
I feel it in each moment
I know that we'll meet soon

I remember winning games
And laughing till we cried
I know there will be changes
But we will be alright

From the tip of Snowdon
To the blue lagoon
I feel it in each moment
I know that we'll meet soon

When you're going far and wide
Just know my spirit is by your side

And when you get nervous
Just think of me
And all the moments
That we turned into memories

From the tip of Snowdon
To the blue lagoon
I feel it in each moment
I know that we'll meet soon
I feel it in each moment
I know that we'll meet soon
